(A) DETPRO - SECURITY INVESTIGATIONS OF INDIVIDUALS -- The primary purpose of the investigation of subversive individuals is to determine their identities, activities, and/or whether they present a serious threat to the internal security of the country. If investigation develops positive evidence indicating that an individual presents a threat or potential threat to the internal security, his name is included in the Security Index. The Security Index contains names of individuals who are considered for immediate apprehension and detention in the event of a national emergency, in order to safeguard the internal security of the United States. The list now consists of over 10,000 names. Effective immediately, the following Priority Apprehension Program and report writing procedures will be instituted:

- The Priority Apprehension Program is being divided into three Priority levels.
 - a. Priority I. This list will consist of hard core national and state basic revolutionary organization leaders and those leaders of other subversive organizations and unorganized groups and individuals who have indicated a propensity for violence and/or have received special training in sabotage, espionage, and/or guerrilla warfare. Individuals employed in or having access to key and/or defense facilities will be included on this list, Verification of residence and employment of each individual will be made every three months. A report will be submitted every six months.
 - b. Priority II. This list will consist of second level leadership of basic revolutionary organizations and other subversive organizations and individuals who present a significant threat but are in less influential positions than those in Priority I. Verification of residence and employment of each individual will be made every six months. A report will be submitted on an annual basis.

170 um 26 1968

56 JUL 2 1058

- Priority III. This list will consist of all other individuals on the Security Index. Verification of residence and employment of each individual will be made every six -- months: A report will be submitted every two years.
- d. Each Priority List will be broken down into nationalistic tendencies and/or organizational affiliations so that apprehensions can be made in each category on a selected basis.
- e. Individuals in each Priority will be apprehended only upon the Attorney General's authorization that their immobilization is in the best interests of the national defense of the United States.
- 2. The category "Key Figure" is being deleted. Consideration should be given to placing these individuals in Priority I.
- 3. The category "Top Functionary" is being continued, and these individuals should be placed in Priority I.
- 4. Each office should immediately review its Security Index and by letter under above caption advise by name, Bureau file number, and organizational affiliation those individuals who are to be included in Priority I and Priority II. This should reach the Bureau by July 5, 1968. The Chicago, Los Angeles, New York, and San Francisco Offices may submit their letters to geach the Bureau by July 15, 1968. Hereafter, when recommending an individual for the Security Index, the FD-122 should indicate the Priority.

Appropriate manual changes will be forwarded.

Very truly yours,

John Edgar Hoover

Recommendations and comments of Division Head

I have reviewed the above suggestion and it appears to have merit. I recommend the suggestion to the Bureau for its consideration

consideration. (Do not write in this space - for Bureau use only)

Recording the Priority number on the form FD-122 will make a permanent record in the subject file as to the subject's Priority without the necessity of preparing a separate memorandum but yet make a uniform reporting system. The Priority space and the space explaining the reason for the subject being placed in a specific Priority would be completed on form FD-122 only in cases of recommending a subject for the Security Index or when the Priority was being changed in a case. This would assist the Bureau in keeping all field offices uniform in placing subjects in the various priorities. It would also greatly assist all field offices in the handling of Security Index cases where such cases are re-assigned from time to time and it becomes necessary for an Agent, new to the case, to know what Priority the subject is in and why the subject was given this Priority if in Priority I or II.

In the years to come, this would greatly facilitate an extensive file review since the Agent would know that the Priority rating and the reason therefore would be on the FD-122 or the FD-128.

With respect to the annual savings that could be expected, a given sum would be difficult to estimate. It should be noted, however, that countless hours of file review in cases of extremely active subjects would be saved.

Federal Dureau of Investigation Chicago, Illinois

Dear

I have received your suggestion that Forms FD-122 and FD-123 be revised to include space for certain information and that file covers on such cases contain the priority numbers. You may be interested to know that several changes were being prepared regarding this matter when your proposal was received and spaces will be provided on these items for the numbers involved. It has been decided the other action mentioned by you is not warranted at this time.

The interest and initiative which prompted you to give me the benefit of your observations on this subject are indeed appreciated.

Sincerely yours, J. Edgar Hoover NOTE:
Suggests since the Security Index (SI) is now being set up
on a priority system that Forms FD-122 (Recommendation
for Preparation of, or Change in, Security Index Card) and FD-128
(Letter Changing Office of Origin in Security Cases) (samples attached)
be revised to provide space for inserting priority of subject of case. Further,
suggests space be provided on these forms, to be used only if subject falls
in priority I or II, in which to explain reason for being placed in either of
these priorities. Also, suggests file covers on SI subjects have added under
the letters SI the priority number.

Total Carlo

Domestic Intelligence Division has advised that several changes are being made regarding the handling of security investigations of individuals including revision of the forms mentioned to provide spaces for entering the priority number. Another change will be in the colors used for the Security Index Card, a different one for each priority, so no need will exist to place priority on file covers. Reason for being placed in a particular priority should be contained in a succinct summary on second page of communication recommending subject be placed on SI. FD-128 does not need to have reason thereon. Due to these views, Training Division recommends no further action regarding this idea.

Federal Bureau of Investigation by and would not be feasible for Springfield, Illinois

Dear

Thank you very much for the suggestion that three particular forms be combined into one when our present supply is exhausted. As a matter of possible interest to you, these items were designed for specific purposes and it was decided any attempt to place all the necessary information on one format would cause confusion.

I appreciate the thoughtfulness which prompted you to give me the benefit of your observations on this subject.

Sincerely yours,

J. Edgar Hoover

Domestic Intelligence Division opposes adoption. It is more practical to have separate forms for these three programs. By having them combined into one format, additional work would be involved on part of Agents handling these matters on part-time basis in determining which items are needed for particular program he is working with at the time. Each form was designed for a specific purpose and combining them would result in confusion on part of field. These forms are prepared separately and maintained separately and would not be feasible to handle as one format. Training Division agrees and recommends idea not be approved.

SECURITY INVESTIGATIONS OF INDIVIDUALS -- Effective immediately, revised Security Index criteria are as follows: (Underscoring indicates new or changed wording.)

- Subject has had membership in, or participation in the activities of, a basic revolutionary organization within the last 5 years as shown by overt acts or statements established through reliable sources, informants, or individuals.
 - Subject has had membership in, or participation in the (B) affairs of, one or more front organizations which adhere to the policies and doctrines of a basic revolutionary organization, in a leadership capacity or by active substantial participation in the furtherance of those aims and purposes of the front organization which coincide with those of a basic revolutionary organization, within the last three years as shown by overt acts or statements established through reliable sources, informants, or individuals.
 - Investigation has developed information that an individual, though not a member of or a participant in the activities of a basic revolutionary or front organization, has anarchist or revolutionary beliefs. and is likely to seize upon the opportunity presented by a national emergency to commit acts of espionage or sabotage, including acts of terrorism, assassination or any interference with or threat to the survival and effective operation of the national, state and local governments and of the defense effort.
 - Although investigation has failed to establish the (D) facts required by (A), (B) or (C) above, either as to the substance of those criteria or because there have been no overt acts or statements within the time limits prescribed, facts have been developed which clearly and unmistakably depict the subject as a dangerous individual who could be expected to commit acts of the kind described in (C) above.

10-15-68 SAC LETTER 68-59

With the increasingly greater number of individuals active in the New Left and other protest groups, our investigations must be thorough, penetrating and complete. We must develop and report not only membership, leadership and activity in New Left or dissident organizations, but also whether the individual has engaged in or professed violence or other unlawful methods to gain his objectives. An individual's propensity for violence must be determined.

"Your investigation must clearly show that individuals recommended for inclusion on the Security Index come within the required criteria, are fully justified, and retention of such individuals on the Security Index could withstand judicial inquiry.

Based on the above, it was obvious and did not want to be interviewed by the FBI and Cleveland Agents feel that even if subject could be contacted in person, she would be uncooperative and hostile towards the FBI.

It is further pointed out that neither Cleveland Agents nor sources of the Cleveland Office have even seen Table at her residence, at any recent demonstrations or at any IDS meetings at Cleveland, nor has any information been received about her indicating she is presently in Cleveland.

Therefore since it is felt subject would be hostile and uncooperative if approached for interview by Agents, plus the fact that she has not been seen in the Cleveland area for several months, Cleveland does not feel any further attempts are warranted to try to interview her at this time.

For the information of the Eureau, Cleveland is currently conducting a security investigation on in order to recommend her for the Security Index and efforts are being made to try to ascertain the current residence and whoreabouts as she has not been seen in the Cleveland area in several months.

SECURITY INVESTIGATIONS OF INDIVIDUALS

Bureau has noted that your office has been submitting letterhead memoranda in most instances involving investigations of individuals connected with Students for a Democratic Society (SDS).

Letterhead memoranda will be sufficient for those individuals where little subversive activity was developed and you desire to close the case as a result of your investigation. However, in those cases where substantial subversive, derogatory information is developed, it is desired that you submit reports rather than letterhead memoranda and disseminate same locally to U.S. Secret Service, particularly, in those cases where individuals are mentally unstable or show a propensity for violence.

As an illustration of the above, reference is made to Kansas City letter dated 12/30/68, enclosing a letterhead memorandum (LHM) of the same date regarding , Security Matter - SDS." This individual has been very active in the affairs of the SDS and according to your latest LHM, your investigation has developed that this subject is a schizophrenic and according to a physician he should be hospitalized for intensive psychiatric treatment. The results of all investigation to date in this case should be submitted in report form and a copy disseminated to U.S. Secret Service locally.

Bring the above observations to the attention of all Agents handling security work in your office.

SUBVINSIVE CONTROL SECTION PROGRAM EVALUATION

PINIODIC REPORTS PROGRAM

1. Origin

Annual reports in Security Irdex (SI) cases have been required since completion of the Summary Report Program 7/14/54 (Yew York Office 5/1/56). In certain type cases periodic reports were required at specified intervals for many years prior to 1954; i.e. key figures, top functionaries.

2. Purnose

To insure that current information is available to the Bureau in report form in order to keep the Bureau, as well as the Department, advised of the status of SI cases and in order to discharge our responsibilities of dissemination to other interested agencies in the executive branch of the Government.

Scope

All offices participate in this program.

4. Tie in With Other Programs

Closely related to the Emergency Detention Program, which deals with plans for the apprehension and detention of potentially dangerous individuals in time of an emergency.

Memorandum to
RL: SUDVIRGIVE CONTROL SECTION
PROGRAM EVALUATION

5. Case Load

As of 10/15/65 there were 10,156 SI subjects, each normally requiring at least one report a year.

Some SI cases require more frequent reports; namely,

(a) top functionaries, quarterly reports. There are 27 individuals considered as "top functionaries." They represent the highest degree of leadership in subversive organizations and their activities are constantly being followed. (b) Key figures, semiannual reports are required in key figure cases presently numbering 480. These individuals represent leadership in subversive organizations on regional, district and state levels and we follow their activities closely.

6. Magnitude

This is a major program as evidenced by the fact that, with the exceptions noted above, in all SI cases investigations must be brought up to date and reports submitted at specified intervals. This does not include investigations and reports on individuals currently being nominated for the SI.

Administrative Controls

Each Supervisor handling security matter cases utilizes a tickler system to insure that reports are submitted when due by the field.

8. Adequacy and Currentness of Instructions

Instructions dealing with this program are found in Section 87D of the Manual of Instructions. This section of the Manual is up to date.

Memorandum to
RE: SUBVERSIVE CONTROL SECTION
PROGRAM .EVALUATION

9. Over-all Value

Data dealing with this program is included in the budget material. In addition, this program enables us to thoroughly review the SI status of each individual subject on at least an annual basis. When information is developed clearly indicating that a subject no longer should be scheduled for apprehension, prompt action is taken to remove his name from the SI. Conversely, if the investigation developes evidence indicating that the subject presents a potential threat to the internal security in time of emergency, his name is included in the SI.

Reports in these cases are widely disseminated to various executive departments. Essentially, every security program of other branches of the Government depends to a large extent on information made available to them by us.

ACTION:

This program will be followed closely and we will continue to require reports in SI cases in accordance with the schedule referred to herein.

ADDENDUM: DOMESTIC INTELLIGENCE DIVISION 11/21/68 PFS:ebp

Suggester recommends form FD-154 (Verification of Information on Security Index Cards) be revised to include Priority apprehension designation in lieu of Detcom tabbing.

FD-154 currently utilized contains space for Detcom tabbing.

A program for the apprehension and detention of persons considered potentially dangerous to the national defense and public safety of the United States (Security Investigations of Individuals) approved by the Director 6/19/68 established three priority levels for apprehension of individuals deemed dangerous in the time of an emergency. Form FD-154 is utilized in the administration of the Security Index.

Revision of FD-154 as suggested (copy attached) will bring this form in line with current Bureau procedures in the administration of the Security Index.

Domestic Intelligence Division recommends adoption.

Federal Cureau of Investigation Washington, D. C.

Dear

Thank you for the suggestion that Form FD-154
be amended in a particular fushion to facilitate its use under our
new procedures. It is a pleasure for me to advise you this proposal
is being adopted and steps are being taken to place it into effect.

I want to take this opportunity to express my appreciation to you for bringing this matter to my attention.

Sincerely yours,

J. Edgar Hoover

(Suggestion 357-69 dated 11/20/68)

NOTE: Suggests Form FD-154, Verification of Information on Security Index Cards, (sample attached) used for field verification of residence and employment of Security Index (SI) subjects be revised to include "Priority" apprehension designations in lieu of "Detcom" tabbing.

(CONTINUED-OVER)

TULFITYER UNIT

SA

Domestic Intelligence Division advised a program for apprehension and detention of persons considered potentially dangerous to the National defense and public safety of the United States (Security Investigations of Individuals) approved by the Director 6/19/68 established three priority levels for apprehension of individuals deemed dangerous in time of an emergency. Revision of FD-154 as proposed will bring this form in line with current Bureau procedures in the administration of the Security Index.

Training Division agrees this form should be revised due to the change in procedures. On approval, this letter will serve as authority for the Forms Management Desk, Training Division, to take appropriate action.

OSECURITY INDEX -

PROGRAM FOR APPREHENSION AND DETENTION OF PERSONS CONSIDERED POTENTIALLY DANGEROUS TO THE NATIONAL DEFENSE AND PUBLIC SAFETY OF THE UNITED STATES

ATTORNEY GENERAL'S PORTFOLIO

The Attorney General's Portfolio contains details of plans and programs to be placed in effect in the event of a national emergency including the Program for Apprehension and Detention of Persons Considered Potentially Dangerous to the National Defense and Public Safety of the United States.

By letters dated April 27, 1953, and April 12, 1955, captioned as above, former Attorney General granted me authority to implement the Approhension and Search and Seizure Provisions of captioned Program under certain conditions. This authority was reiterated by former Attorneys General

General and on June 10, 1960; April 21, 1961; February 19, 1965, and April 5, 1967, respectively.

I would appreciate advice from you as to whother I can exercise this authority when such authority from either the President, the Attorney General, or one of the first eight persons in the chain of authority within the Department of Justice could not be obtained within the time necessary for such action to be instituted.

SUBJECT: EMERGENCY DETENTION PROGRAM

ATTORNEY GENERAL'S PORTFOLIO

JEDONAL TO LOT TO A SECOND Former Attorney General , on 4/27/53, (reiterated 4/12/55) granted the Director authority to implement the Apprehension and Search and Seizure Provisions of the Emergency Detention Program should a major surprise of the Company of the Mark on Washington D. C. Company and Should the Director attack on Washington, D. C., occur and should the Director be unable to obtain a communication of authority from the President, the Attorney General, or one of the first five persons in the Department's chain of authority. This authority reiterated by succeeding Attorneys General

It is believed that Attorney General should be asked if it is his intention to continue the authority granted the Director by the former Attorneys General mentioned above.

It is noted that the Department's chain of authority lists Assistant Attorney General in Charge of the Internal Security Division in eighth position in the chain of authority. Since the Internal Security Division of the Department actually handles and is in fact the only Division within the Department which is thoroughly familiar with this Program, the request for authority necessary for implementation of this Program is for authority necessary for implementation of the Program is being extended to the first eight persons in the Departmental chain of authority.

ACTION:

If you agree, there is attached a proposed letter to Attorney General A copy of this letter is being directed to the Internal Security Division inasmuch as matters dealing with the Emergency Detention Program are handled by that Division. A copy of attached letter also being furnished to the Deputy Attorney General.

Dear

Thank you for the suggestion that Form FD-154 be an ended to add certain items and relocate others already contained in the format. It may interest you to know that the latest revision of this form which is dated November 25, 1908, contains spaces for use in recording the rejerity of the data mentioned by you.

I appreciate your continued laterest in seeking ways to improve our operations.

Sincerely yours, J. Edgar Hoover Mrs.

NOTE: Suggests when current supply of Form FD-154
(Verification of Information on Security Index Cards)
is exhausted, it be revised to include information re Priority tabbing
and that information re photograph be replaced on this format.

It should be noted suggester has used a form which is outdated (sample of format submitted and current form attached). Training Division feels current format is entirely sufficient for handling the information involved and recommends no further action regarding this proposal. Domestic Intelligence Division agrees with these views.

Advantages of suggestion and annual savings (include basis for estimate) es of suggestion and annual savings (include pasis for estimate)

By making the above addition to the FD-305 it would serve the following useful purposes.

1. It would serve as a flag at the Bureau that the individual is a top functionary and warrants retention as same. It would insure that the status of top functionaries would be scrutinized by the report writing Agent on a quarterly basis and include a justification for his retention as same.

It would act as a continuing reminder to Agents writing security reports that all security subjects should be reappraised for possible inclusion as top functionaries. This is especially important since the Key Figure designation has been deleted per SAC Letter 68-36.

Suggester recommends that Form FD-305 which is used to summarize a security subject's status on the Security Index be amended to show whether the subject is a top functionary and why he should continue to be so classified.

Suggester states this would serve to flag these cases at Bureau and act as reminder to field Agents that all security subjects should be reappraised for retention or deletion as top functionaries or should be recommended as top functionaries.

While the advantages set forth by the suggester are true, the Manual of Instructions, Section 87D, clearly outlines the criteria for designating subjects as top functionaries and the fact they are placed in Priority I of the Security Index and that the character of the communications submitted should be "Internal Security - (followed by letters designating organizational affiliation or nationalistic tendency)."
Field recommendations for top functionaries are carefully appraised by Bureau in order to keep this designation on a very selective basis. Therefore, these cases are limited in number.

In view of the above, it does not appear this change in the FD-305 is warranted. Domestic Intelligence Division recommends against adoption.

PERSONAL

Federal Dureau of Investigation

Dear

I have received your suggestion that an additional item be added to Form FD-305. After evaluation, it has been decided this action is not warranted since appropriate rules concerning this matter are included in the Manual of Instructions and these cases are limited in number.

The interest you displayed in submitting your idea to me is indeed appreciated.

Sincerely yours,

J. Edgar Hoover .

NOTE: Suggests adding item #11 to Form FD-305 (Last Cover Page for Security Index Report) as follows:

11 Subject is 7 is not 7 designated as top functionary.

If designated top functionary, he warrants retention as same because . . .

(Sample of form attached.)

Domestic Intelligence Division opposed adoption pointing out, while the advantages as set forth by suggester are true, the Manual of Instructions, Section 87D, clearly outlines criteria for designating subjects as top functionaries and the fact they are placed in Priority I of Security Index and that character of communications submitted should be "Internal Security - (followed by letters designating organizational affiliation or nationalistic tendency)." Field recommendations for top functionaries are carefully appraised by Bureau in order to keep this designation on a very selective basis. Therefore, these cases are limited in number.
